[Women in Property](https://www.womeninproperty.org.uk)

Do you have a young person in your household who is concerned about their future career? We are all too aware of the challenges COVID-19 has placed on young adults and particularly their opportunities for work experience and so we have arranged an opportunity for you to offer them some insights into potential careers.

Charles Russell Speechlys in partnership with **Women in Property** are delighted to invite you and your children to a panel discussion and Q&A with industry leaders on the range of opportunities within the property and construction sector, with topics including:

How did you get to your role?

What tips would you give to your teenage self?

What do you see as the future trends/issues/opportunities in the property industry?

What's exciting you in your role/career (and what is less exciting)?

Following the panel discussion there will be breakout rooms with professionals such as surveyors, architects, land buyers, project managers and facilities with Q&A opportunities. The webinar is open to Year 11+ students.

Please note, all under 18s must be accompanied to this virtual event by the Parent or Guardian registered for the event. This event is open to all children irrespective of gender.
