"He cheated, so I get more of the money": True or false?

Most people's perception of family law comes from what is seen on TV or in the media – many don't realise that family law in Scotland is different to the rest of the UK, and the answer isn't always as you might think.

In this session, **Brodies' family lawyer Kate Bradbury** will address some of the most common misconceptions of Scottish family law as well as answering questions on topics such as when you can get divorced, pension sharing, cohabitation rights and who can take the kids abroad on holiday.

Join Kate from Brodies LLP and our own Laura Banks and Leanne Hill, for a session not to be missed for any woman who wants to be a little better informed about family law in Scotland.
