Bring a team together and get outside to celebrate the start of Summer with our team step challenge.

Stretch your legs over the course of two weeks and log your activity as we work together to complete a virtual walking route and raise awareness for two charities Women in Sport and Smart Works.

Sponsored by Sanderson Weatherall, Stride Treglown and WISE there will be some great prizes, if you need an added incentive!

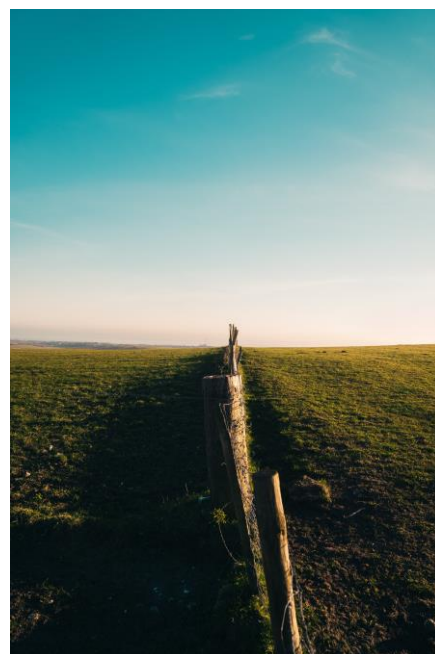

Women in Property members from any region can enter a team of up to four people. Friends, family and non-members are very welcome, but the team leader should be a **member of Women in Property**.

To register please provide the name and contact details of the member who will be the team lead.

The cost is £40 per team submission and all profits raised will go to the two charities.

A third-party platform will be used to monitor activity – a FAQ and further details will be sent on registration.

In 2021, 33 teams walked a staggering 21,787,808 steps (14,942km) – the length of the coast of the Mediterranean Sea - over the course of the challenge. Let's see what we can achieve in 2022...
